EDUCATION

Arizona State University <i>M.S. Data Science (Computing & Decision Analytics Concentration) — GPA: 3.90/4.0</i>	Tempe, AZ Aug 2024 – May 2026
IIIT Bhubaneswar <i>B.Tech in Computer Science and Engineering — GPA: 7.14/10</i>	Bhubaneswar, India Dec 2020 – May 2024

TECHNICAL SKILLS

Agentic AI & LLMs: LangGraph, LangChain, Claude API, GPT-4o, MCP, RAG, Prompt Engineering
ML & Data: PyTorch, scikit-learn, Pandas, NumPy, SARIMAX, RAGAS, Automated Evaluation
Full-Stack & Backend: FastAPI, React, Next.js, TypeScript, PostgreSQL, REST APIs
Cloud, DevOps & Languages: AWS (EKS, Lambda, S3), Azure, Docker, Kubernetes, GitHub Actions, Python, SQL

PROJECTS

AgentForge — Agent-Native Platform <i>Python, FastAPI, React, TypeScript, AWS (EKS, Lambda, S3), Docker, PostgreSQL</i> - Solo-architected and built a production agent-native platform (“Vercel for AI agents”) to build, deploy, evaluate, and govern autonomous AI agents, spanning 5 microservices and ~16,800 lines of code - Deployed the full platform live on AWS EKS behind HTTPS and a WAF, then automated a complete teardown to \$0 idle cost, demonstrating end-to-end cloud lifecycle ownership	2026
InsightHub — AI-Powered Business Analytics Platform <i>Python, FastAPI, Azure SQL, Azure Blob Storage, Azure OpenAI (GPT-4o), Azure AI Search, React</i> - Designed and deployed a full-stack Azure analytics platform ingesting 230,000+ rows through a star-schema ETL pipeline into Azure SQL - Built a FastAPI backend serving business insights to a React dashboard, fully deployed and live in production	2026
TravelIQ — AI Travel Itinerary Generator <i>Python, Flask, OR-Tools, scikit-learn, SARIMAX, GPT-4o</i> - Built an AI travel planner that generates a complete, feasibility-checked itinerary in under 90 seconds, combining ML recommendations, image generation, and route optimization - Modeled demand and pricing trends with SARIMAX time-series forecasting and scikit-learn to inform itinerary recommendations	2026
Republic of Bean — Agentic AI Ordering System <i>LangGraph, Claude API, FastAPI, PostgreSQL, Model Context Protocol (MCP)</i> - Built a multi-agent conversational ordering system using LangGraph with Claude as the orchestrating agent across specialized sub-agents - Exposed PostgreSQL-backed internal ordering APIs to the LLM through the Model Context Protocol (MCP), decoupling agent reasoning from application logic	2025

EXPERIENCE

Visiting Researcher <i>Arizona State University</i> Designing, developing, and implementing AI-based approaches and solutions for blockchain technologies	Aug 2026 – Present Tempe, AZ
Teaching Assistant & Grader <i>Arizona State University, Ira A. Fulton Schools of Engineering (CSE 230 – Computer Architecture)</i> Graded student submissions and gave feedback across cache memory calculations, AMAT, MIPS multi-cycle control signals, and pipeline hazards using structured, leniency-calibrated rubrics	Aug 2025 – May 2026 Tempe, AZ

CERTIFICATIONS

AWS Certified Solutions Architect – Associate (Jul 2026); AWS Certified AI Practitioner (Jun 2026);
AI Fluency Framework & Foundations – Anthropic (May 2026); Claude Code 101 – Anthropic (May 2026); Claude 101 – Anthropic (May 2026); Introduction to Claude Cowork – Anthropic (May 2026); 3rd Place, Social Bias Hackathon – Ethical Spectacle Research x Arizona State University (Oct 2024)
